3/13 works for me.
Jim

I would be good to have Rick there. How about **Thursday, March 13th, at 10-noon?**

I haven't heard from anyone regarding the time, but (b) (6)

How about:

- Comments on draft strategy, decision matrix, and RI Basin wide SCD outline, back to DEQ by 2/29.
- Next meeting to take place at DEQ on Tuesday, March 11th, from 10-noon.

Please confirm that this works. Thanks

Keith

Thanks everyone for a productive meeting today. The goal was to explain DEQ's current stormwater work and rationale and we achieved that. Several questions remain over substance regarding the strategy and the modeling.

To address questions about the modeling work Bruce did, I suggest Karen set up a time, if desired by the team, to review more in depth the results and parameters.

To address the strategy, we agreed that EPA would review the strategy and decision tree for making Scud's at stormwater sites. We will reconvene in late Feb

after the Milestone meeting (when is the Milestone Meeting?) to discuss EPA's comments and see what level of support EPA can give the strategy for our pre-ROD work. **How does the week of 2/25 look?**

Also, there was a request by EPA to see how we envisioned basins to complete SC actions. Here is the initial look at those steps.

<<RI Approach Conceptual 7-07.doc>>

DEQ and BES will move forward in the interim to determine an implementation schedule for this strategy for 2008. We can discuss more about that in Feb. There was also some talk of the broader SC discussion for March.

Thanks

Keith

Attached are materials for our stormwater meeting this Thursday, 1:00 - 3:00, in DEQ Conference Room A/B (4th floor)

We hope you have time to review these materials in advance of the meeting, but note that we're not looking for comments on them.

We are envisioning this as largely a "listening and learning" session for EPA. We want to present our overall stormwater strategy to you, provide a status report on progress, and give you a taste of some of the tangible, on-the-ground efforts being undertaken to

ensure we are on the right track.

Please let me know if you have any questions. Looking forward to seeing you on Thursday!

Karen
